

Adobe Dreamweaver CS4 Level 1

- **Course Length:** 1 Day

Course Overview

This instructor-led course teaches students to design, build, and upload a website using Adobe Dreamweaver CS4. It covers a wide range of topics including getting comfortable with the Dreamweaver CS4 interface, using cascading style sheets and tables, reusing site assets, accessibility standards, and the upload and testing process.

Prerequisites

This is an entry-level course.

Audience

This course is intended for novice web designers, web developers and web graphic artists and also for media marketing personnel who need to build simple websites and want to utilize the features of Adobe Dreamweaver CS4.
