

## **Introduction to Adobe Photoshop Web CS2 Training**

- **Course Number:** AdbPhWeb
- **Length:** 1 Day(s)

### **Certification Exam**

There are no exams associated with this course.

### **Course Overview**

In this course, the instructor will discuss and demonstrate the basic web tools used in Adobe Photoshop CS2 and how Photoshop is used in web production. Students will learn how to prepare images and text for web optimization, create web page layouts, create and edit animation, as well as creating basic shapes and drawing vector paths. Photoshop is one of those programs that is so cool you just want to dive right in and start creating. This course takes you step-by-step through your mastery of Photoshop CS2.

### **Prerequisites**

Basic computer proficiency is required.

### **Audience**

This course is for anyone interested in graphic design who would like to learn how to use Adobe Photoshop CS2 for Web Graphics.
